Welcome to the web site of TEL-ME-MOR!

TEL-ME-MOR was a project funded by the European Commission under the Sixth Framework Programme of the Information Society Technologies (IST) Programme . The project lasted from 1 February 2005 to 31 January 2007 and had two main objectives:

- to support the 10 national libraries from the New Member States, which are partners in the project, in becoming full members of The European Library ;
- to stimulate and facilitate the participation of organisations from the New Member States of the European Union in projects funded within the IST area.

This site will not be updated after 31 January 2007. The information published on this site will be transferred to the web sites of The European Library and EDLproject at the latest in April 2007.

Metadane – wielkie wyzwanie

- Europeana gromadzi dokumenty cyfrowe tworzone przez biblioteki, archiwa i muzea
- Różne tradycje i standardy opracowania katalogowego
- Twórcy projektu napotkali ogromne problemy przy pierwszych próbach agregacji metadanych

Europeana Semantic Elements (ESE)

- IsShown at: sposób kontekstowej prezentacji obiektów (link URI prowadzący do obiektu cyfrowego w macierzystej bibliotece cyfrowej)
- Tag użytkownika: tagi publiczne tworzone przez zarejestrowanych użytkowników
- Unstored: „kosz” na przydatne informacje, nie pasujące do innych pól
- Obiekt : do użytku wewnętrznego – wskazuje miejsce umieszczenia wglądówki

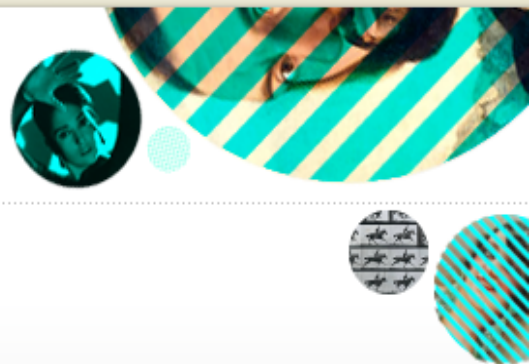

Europeana v.1.0

- Rozpoczęcie projektu: marzec 2009 r.
- 85 partnerów (biblioteki, archiwa, archiwa audiowizualne, muzea, stowarzyszenia i projekty digitalizacyjne)
- Cel: uruchomienie pełnej wersji portalu (v.1.0) w połowie 2011 r. (wersja „Dunaj”) oraz etapu pośredniego (wersja „Ren”) w końcu 2010 r.

Europeana version 1.0 is a 2.5 year project that will bring the [Europeana.eu](#) prototype to full service. In **2010** we will implement a new version of Europeana with added functionality and **access to over 10 million digital objects**.

The second phase of the project will see the launch in 2011 of a fully-operational Europeana.eu with improved **multilinguality** and **semantic web** features.

The project is funded under the Commission's [eContentplus](#) programme. It's a Thematic Network that brings over 100 partners from libraries, museums, archives and audio-visual collections together. We're building **open source** solutions and reusing technologies developed in related Commission-funded projects. Universities, ministries and heritage strategy bodies are also part of our **knowledge-sharing consortium**.

„Europeana daje nam okazję do podróżowania w czasie, ponad granicami i w głąb nowych koncepcji dotyczących definicji naszej kultury. Co więcej, pozwala stworzyć więź między ludźmi i ich historią oraz, dzięki interaktywnym stronom i narzędziom, także budować więzi międzyludzkie.”
